

Proposed Street Trees:

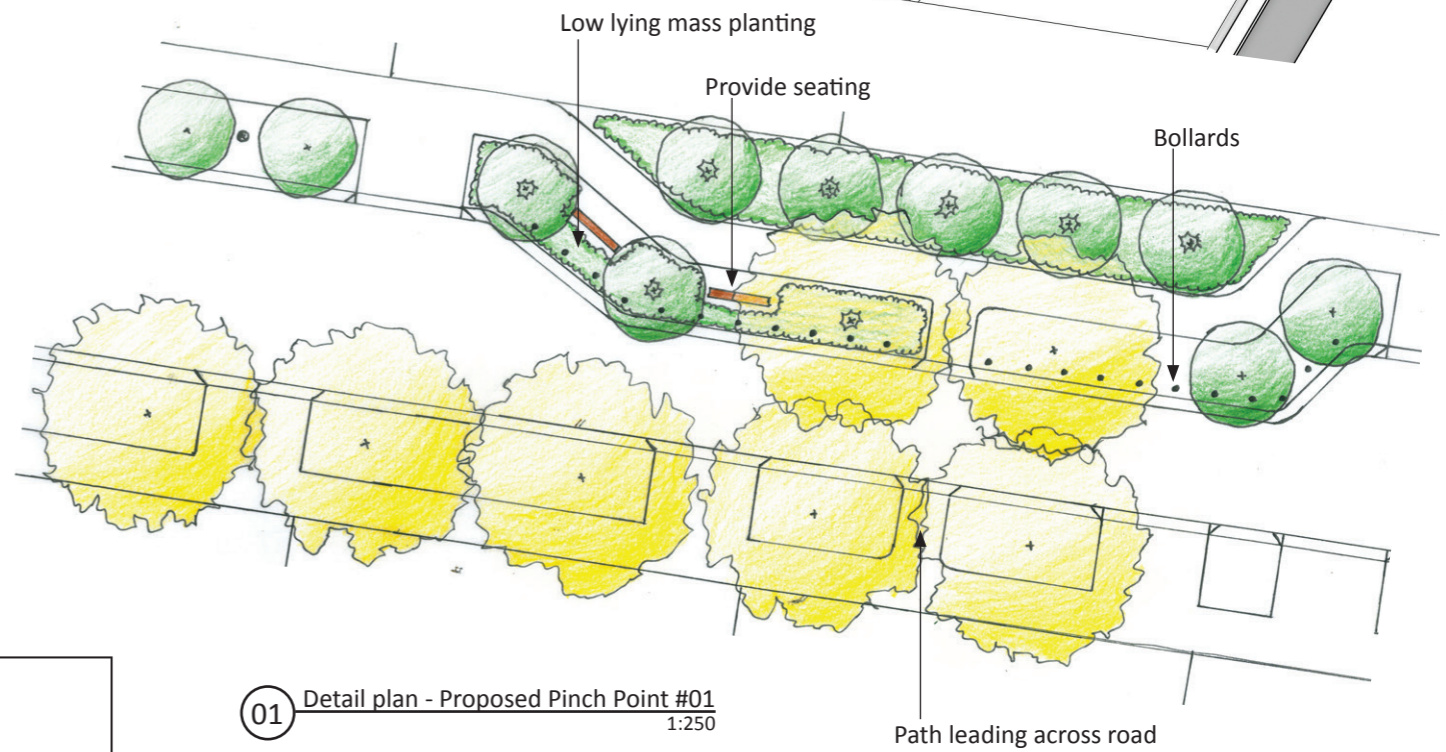

***Zelkova serrata*
'Goldenflame'**

A very adaptable deciduous tree with excellent uniformity and branch structure providing brilliant shade. Excellent street and avenue tree where its natural habit allows vehicular and pedestrian traffic to pass. Golden-Yellow leaves in spring darkening to a light green during summer. Grows at a moderate to fast rate to reach approx. 10 x 9m at 20 years.

***Gleditsia triacanthos var. inermis*
'Elegantissima'**

One of the most underutilised deciduous trees available to the ornamental tree market in Australia today. A very interesting small, compact form of Gleditsia that will provide year-round interest. Excellent for use as a specimen or screening tree in gardens, courtyards, car parks and streets. Grows at a slow rate to reach approx. 5 x 3m at 20 years.

Legend:

- Zelkova serrata 'Goldenflame'
- Gleditsia 'Elegantissima'
- Raised section of the road narrowed to one lane
